

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

SEC. 2. That whenever one or more persons owning lands adjacent to said ditch or ditches, drain or drains, water-course or water-courses, referred to in section one (1) of this act, shall file a petition with the auditor of Darke county, Ohio, addressed to the commissioners of said county, giving the starting point, route, and terminus, and setting forth the necessity of such clearing and widening, deepening, straightening, and constructing the same, and shall file a bond, with amount and sureties to the acceptance of the said auditor, conditioned to pay all the costs and expenses incurred, in case the commissioners shall refuse to grant the prayers of the petition, or fail to establish said improvement, the commissioners shall appoint an engineer to survey and level the route of said proposed improvement as described in the petition; and the auditor shall place a correct copy of said petition in the hands of the engineer

The profile of the engineers shall show:

1. The surface line, the grade line fixed, and the number of each station, and the length of each section thereof, of not more than one hundred (100) feet, numbered in a series down stream.

2. A line representing the present depth of the ditch, drain or water-courses covered by and mentioned in the petition for the improvement proposed.

3. The depth and a cross section (each half mile) of the ditch, drain, or water-course which the said engineer shall recommend to complete the improvement suggested by and prayed for in the petition.

The said engineer shall give in his report the actual number of cubic yards of earth to be removed, also specify the manner in which the work shall be done, the necessary flood-gates, water-ways, bridges, and farm-crossings, which are to be constructed and kept up by the persons requiring them or either of them, in such manner that the flow of water in said ditch, drain, or water-courses shall not be impeded thereby, together with such other facts and suggestions as he may deem material. It shall be the duty of the county auditor, on such report being filed, to cause notice of the same, the pendency and prayer of said petition, and the time set for the hearing thereof by the county commissioners, at which time they will establish the same, to be given by publication for two consecutive weeks in some newspaper published and of general circulation in Darke county, and said notice shall be deemed sufficient to all non-resident land-owners interested, and a like notice shall be served on all resident land-owners, or corporations interested, at least six days prior to the day set for hearing, by one of the petitioners, who shall make a return in the original notice, under oath, of the manner and time of serving said notice.

SEC. 3. That any person or persons claiming compensation for lands or property appropriated, or who shall sustain any damage by the clearing out, widening, deepening, straightening, or constructing of such drain, ditch, or water-courses shall make his, her, or their application in writing therefor to the county commissioners, and file the same with the county auditor, on or before the day set for hearing the petition, and on failure to make such application, shall be deemed and held to have waived his, her, or their right to such compensation and damages.

SEC. 4. Upon the hearing of the petition and report of the engineer, as mentioned in section two of this act, the commissioners shall, if they

find the requirements of the second section of this act have been complied with, and if, in their opinion, the public health, convenience, and welfare, and the drainage of roads and land demand it, enter upon their journal an order that said improvement be made, which order shall state the kind of improvement, and the width and extent of the same, and the lands which shall be assessed for the expense of the same, and they shall thereupon appoint a competent engineer to superintend the performance and completion of said work, who shall give printed notice, for at least two weeks, of the time and place, when and where, he will let contracts for the performance of the same, which notice shall be given by posting one notice upon the door of the auditor's office, and not less than ten such notices in public places in the vicinity of said proposed improvement, and who shall, with the approval of the county commissioners make a contract for the completion of the work, and the contractor may at once enter upon the performance of said work, under the superintendence of the engineer appointed as aforesaid: provided, that said improvement shall be let in sections of not less than one-half mile, and to the lowest and best bidder, who shall give bond and security for the proper performance of his contract within the time and manner described, as the county commissioners may deem sufficient.

SEC. 5. The commissioners, when any such improvement shall have been ordered by them, shall immediately, upon actual view of the premises, apportion the expense of said improvement, including the cost of compensation for lands appropriated and damages sustained, and all other expenses of the location and establishment of said improvement, upon the real property embraced in the order aforesaid, according to the benefit to be derived therefrom. When the apportionment shall have been made as aforesaid, the county auditor shall give notice of the same by publication, in tabular form, in some newspaper published and of general circulation in said county for two consecutive weeks, of the time when the commissioners will meet at the county auditor's office to hear exceptions to the same, which notice shall be deemed sufficient for all non-residents interested, and a like notice to all resident land owners, corporations or other parties interested, served as provided in section 2 of this act. On the day named in said notice, the commissioners shall meet, and if no exceptions have been filed to said apportionment, they shall confirm the same; but if exceptions in writing have been filed by any of the owners of the lands affected thereby, they shall first proceed to hear such exceptions, and for that purpose shall hear any testimony that shall be offered by any party interested, and either one of the said commissioners shall be authorized to administer oaths to witnesses, and upon such hearing they may either confirm said apportionment or change the same. The final action of the commissioners shall be entered upon their records, and shall show how the said expenses has been apportioned upon the lands ordered to be assessed as aforesaid. The county auditor shall assess the amount of said apportionment to the said several tracts of land, town lots, roads, or railroads to which the same has been as aforesaid apportioned by said commissioners, and place the said assessment upon a special tax duplicate, to be provided for that purpose by the county commissioners, and said assessment shall be collected as taxes are now collected: provided that all the costs and expenses of the preliminary survey, proceedings, and apportionment of said improvement shall be paid out of the county treasury; and all the expenses and costs aforesaid shall be paid into the county treasury out of the first collections from the first levy of taxes authorized by this act.

SEC. 6. That for the purpose of raising the money necessary to meet the expense of said improvement, the commissioners of the county are hereby authorized to issue the bonds of the county, payable in installments or at intervals, not exceeding, in all, the period of five years, bearing interest at a rate not to exceed six per cent. per annum, payable semi annually, which bonds shall not be sold for less than their par value; and the said assessment shall be divided in such manner as to meet the payment of principal and interest of said bonds, and to be placed upon the special tax duplicate against the lands assessed, and be collected in the same manner as other taxes are, and the same penalties for delinquencies and in redemption of the lands sold for the non-payment of such assessments, shall be valid, the same as in state and county taxes, and when collected, the money arising therefrom shall be applied to no other purpose than the payment of said bonds and interest: provided that the money paid out of the county (treasury) for the preliminary survey and other expenses, shall be first paid into the said treasury: and provided further, that no bonds shall be delivered or money paid to any contractor, except upon estimate of work done as the same progresses, or is completed, which estimate shall be made by the engineer of said improvement, and one or more of said county commissioners.

SEC. 7. For the purpose of keeping said ditch, drain, or water-courses free from drift-wood, brush, or other obstructions, the county commissioners shall be authorized to levy, from time to time, such an amount of tax on the lands so benefited and heretofore assessed for the said improvement, as in their judgment may be deemed sufficient to keep such water-courses in good repair, and said amount so levied shall be applied to the removing of such drift-wood or other obstructions under and by direction of said commissioners, in such manner as they may deem best, and they shall enter an order upon their journal, specifying the amount to be levied for such purpose, and the portion or portions of such ditch, drain, or water courses to be freed, and the same shall be collected and applied according to the previous provisions of this act.

SEC. 8. The fees of the county auditor, treasurer, commissioners, probate judge, and engineer and surveyor shall be the same as provided by law for like services in other cases, and shall be paid out of the county fund and not again reimbursed; except the engineer and surveyor's fees, which shall be reimbursed, each chainman, rodman, and axman shall receive one dollar and twenty-five cents per day. The printer's fees for publishing the notices herein provided for shall be at the rate of fifty cents per square for actual printed matter for the first insertion, and twenty-five cents per square for each subsequent insertion, and no more. All cost bills shall be examined and approved by the commissioners.

SEC. 9. The said county commissioners may, when such improvement is located and established as provided in this act, and the same crosses any corporate or public road, or any railroad, if they are of the opinion that the same will be benefited, and the road-bed or traveled track will be made better by the clearing out, widening, deepening, straightening, and constructing said ditch, drain, or water-courses, apportion and set off to the county, if a county or state road; to the township, if a township road; to the company, if a corporate or railroad, a part of the cost of constructing said improvement, the same as to private individuals, according to the provisions of this act, and compel them to pay said costs of construction in like manner.

SEC. 10. If application for compensation or damages shall have been made agreeably to the third section of this act, the commissioners shall fix a day on which they will meet and determine, upon actual view of the premises, the amount of compensation or damage to be paid to such applicant, and also a day when they will make their report. After the report of said commissioners shall have been made, the petitioners may discontinue the said proceedings, by paying all costs that have been accrued up to that time, and notifying the auditor, in writing, that they will not further prosecute the same; but no proceedings shall be discontinued unless the notice thereof shall be signed by a majority of the petitioners for said ditch.

SEC. 11. If any person shall feel aggrieved by the action of said commissioners in the assessment of damages or compensation, they may, within fifteen days from the making of said report, appeal from the decision of the commissioners, to the probate court of the county, by giving an undertaking with good and sufficient sureties, to be approved by the auditor, conditioned to pay all costs on such appeal; if the appellants shall fail to sustain their appeal against the decision of the commissioners, and such undertaking having been given, the auditor shall forthwith certify to the probate court a copy of said appeal, together with a description of the property taken, or injured, as contained in the report of the commissioners, which shall be docketed in said court, styling the appellant plaintiff, and the commissioners defendant.

SEC. 12. If the appeal be taken on account of damages or compensation allowed by the commissioners, such proceedings shall be had to determine the amount as are required by the act entitled "an act to provide for the compensation and damages to private property appropriated to the use of corporations," passed April 30, 1852, and the acts amendatory thereof and supplementary thereto, and the compensation or damages found in favor of said claimant shall be certified by said probate judge to the county auditor, and paid out of the county treasury from the general fund.

SEC. 13. All acts and parts of acts, and provisions of law now in force relating to the construction, clearing out, widening, or otherwise improving any ditch, drain, or water-courses, that are inconsistent, or in any way conflict with the provisions of this act, shall be held to be inoperative and of non-effect in any proceedings had by and under the provisions of this act; but in all matters not provided for in this act, the commissioners shall be governed by the general laws in force relating to the locating and establishing, widening, deepening, or otherwise improving ditches, drains, and water-courses, as they may be applicable to these proceedings.

SEC. 14. That the collection of taxes levied, or ordered to be levied, to pay for the location, establishment, and construction of any ditch, drain, or water-course, to be straightened, widened, deepened, or otherwise improved under and by authority of this act, shall not be perpetually enjoined or declared absolutely void in consequence of any error committed by the engineer or surveyor, or by the county auditor, or by the county commissioners in the location or establishment thereof, nor by reason of any error or informality appearing upon the record of the proceedings by which such ditch, drain, or outlet shall have been located and established. But the court in which any proceedings may hereafter be brought to revise, or to declare void the proceedings by which such ditch, drain, or outlet has been located or established, or to enjoin the

tax levied or to be levied to pay for the labor and fees aforesaid, shall, if there be manifest error in said proceedings, set the same aside, and allow the plaintiff in the action to come in and show wherein he has been injured thereby. The court shall, on the application of either party, appoint such person or persons to examine the premises or survey the same, or both, as may be deemed necessary; and the court shall on final hearing make such order in the premises as shall be just and equitable, and may order such tax to remain on the duplicate for collection, or order the same to be levied, or may perpetually enjoin the same, or any part thereof, or if the same shall have been paid under protest, shall order the whole, or such part thereof as may be just and equitable, to be refunded. The costs of such proceedings to be apportioned among the parties, or paid out of the county treasury, as justice may require.

AN ACT

Providing for the relief W. M. Corry.

WHEREAS, By an ordinance passed by the trustees of the Mt. Auburn, Walnut Hills, and Clintonville special road district, adjoining to, and since annexed to the city of Cincinnati, 15th of November, 1869, an assessment of \$11 per front foot was levied for the improvement of Jefferson street, Corryville, from Calhoun to St. Clair street, which was previously ordered to be made by said trustees. And the said assessment ordinance, besides many lots 25 feet front by 100 deep, belonging to various owners, covered blocks 25 and 32, owned by W. M. Corry, being each 400 feet square, and fronting on four unimproved streets, to wit: Block 25 by Jefferson, Boone, Madison, and Hammond, and block 32 by Jefferson, Hammond, Madison, and Wayne streets, so that the assessment upon the 800 feet front of the two blocks would be \$8,800, which the law made a lien only on the Jefferson street front to the depth of 100 feet; and,

WHEREAS, The contractor claimed a lien for the Jefferson street improvement over the entire blocks, which claim being assailed by suit in the Hamilton common pleas, was, by a mistake of the law and of the facts, allowed by the court, affirmed on appeal by the district court, and afterwards on error to the supreme court, from which last court, on sug-

gestion of an erroneous decision of a federal question, the case was heard after three years' delay, and relief derived by the supreme court of the United States; and,

WHEREAS, In May, 1875, an order of sale of the district court aforesaid had been issued, following the decree by which said blocks 25 and 32 were appraised entire at \$12,000 each, but the sale was suspended by Justice Swayne, of the United States supreme court, and proceedings were superceded in the state courts until 1878. The federal court docket not permitting an earlier hearing, but which order for sale is now being enforced so as to sacrifice the entire blocks for the making of one street out of the four on which they front respectively; and

WHEREAS, Since the decree in this case the courts of Ohio have decided that the limit of the street contractor's lien upon undivided blocks extends only to the depth of 100 feet, if that be, as it is here, the usual depth of lots, and consequently the counsel on both sides, the parties, and the court were mistaken in allowing it to extend over the entire blocks 25 and 32, or four times as much property as should have been charged, leaving nothing for the other three streets, which mistake they would correct if the unavoidable delay of over three years in the federal court had not cut off the writ of error; therefore,

SECTION 1. *Be it enacted by the General Assembly of the State of Ohio*, That the auditor of the city of Cincinnati be and he is hereby authorized and required to ascertain the actual value of the Jefferson street front of blocks 25 and 32, Corryville, 100 feet deep, in proportion to the total appraised value aforesaid, and that shall be the extent of the contractor's lien. The said W. M. Corry shall pay his part of the assessment according to the law at the time said lien took effect, and the city the remainder thereof, within ninety days from the time when such reassessment is made. If said Corry, at the expiration of said time, is in default of payment, then the part of the premises above designated shall be sold. The city auditor shall issue his warrant upon the city treasurer for the amount to be paid by the city, to be paid out of the general fund of said city, and the same shall be a sufficient voucher without other proceedings.

SEC. 5. The commissioners of said counties, when such improvement shall have been ordered by them, shall immediately, upon actual view of the premises along the route of said ditch improvement, apportion the expense of said improvement, including the costs of compensation for lands apportioned and damages sustained, and all other expenses of this location and establishment of said ditch improvements upon the real property embraced in the order aforesaid, according to the benefit to be derived therefrom. When the apportionment shall have been made, the county auditors of said counties of Seneca and Sandusky shall give notice of the same by publication, in tabular form, in some newspaper published and of general circulation in their respective counties, for two consecutive weeks, and of the time and place when and where the county commissioners of said counties of Seneca and Sandusky will meet to hear exception to the same. On the day named in said notice, the said commissioners shall meet, and if no exceptions shall have been filed to said apportionment, they shall confirm the same; but if exceptions in writing have been filed by any of the owners of lands affected thereby, they shall first proceed to hear such exceptions, and for that purpose shall hear any testimony that shall be offered by any party interested, and either one of said commissioners shall be authorized to administer oaths to witnesses, and upon such hearing they may either confirm said apportionment or change the same, and the final action of the said joint board of commissioners shall be entered upon their records in each of said counties, and shall show how the said expense has been apportioned upon the lands ordered to be assessed as aforesaid. The said joint board of commissioners shall have full authority to determine the manner in which the assessments shall be made, and the amount of the expense of the preliminary survey, costs of location, and establishment and costs of construction which each county shall pay. The county auditor of each of said counties shall assess in such installments the amount of said apportionment to the said several tracts of land, town lots, highways, roads, or railroads within the respective counties, to which the same has been as aforesaid apportioned by said joint board of commissioners, and place the said assessment upon the tax duplicate in each county, and said assessment shall be collected as taxes are now by law collected: provided, that all the costs and expenses of the preliminary survey, proceedings and appor-

tionment of said improvement shall be paid out of the county treasuries respectively as are authorized by the joint board of commissioners.

SEC. 6. That for the purpose of raising the money necessary to meet the expense of said improvement, the commissioners of each of said counties are hereby authorized to issue the bonds of their county, in amounts as determined by said joint board, payable in installments, or at intervals, not exceeding in all the period of five years, bearing interest at a rate not to exceed six per cent. per annum, payable semi-annually, which bonds shall not be sold for less than their par value; and the said assessment shall be divided in such manner as to meet the payments of principal and interest of said bonds, and to be placed upon the tax duplicate against the lands assessed, and be collected in the same manner as other taxes are, and when collected, the money arising therefrom shall be applied to no other purpose than payment of said bonds and interest: provided, that no bonds shall be delivered or money paid to any contractor except upon estimate of work done, as the same progresses or is completed, which estimate shall be made by the engineer of said improvement, and approved by one or more of said county commissioners, as said joint board may direct: and, provided further, that the moneys paid out of either of said county treasuries by authority of this act shall be reimbursed to said county treasuries out of the first levy of taxes authorized by this act.

SEC. 7. For the purpose of keeping said ditch, drain, or water-course free from drift-wood, brush, or other obstructions, the joint board of county commissioners shall be authorized to levy, from time to time, such an amount of tax on the lands so benefited, and heretofore assessed for the said improvement, as in their judgment may be deemed sufficient to keep such water-course in good repair, and said amount so levied shall be applied to the removing of such drift-wood or other obstruction, under and by direction of said commissioners, in such manner as they may deem best, and they shall enter and order upon their journal specifying the amount to be levied for such purpose, and the portion or portions of such ditch, drain, or water-course to be freed, and the same shall be collected and applied according to the previous provisions of this act.

SEC. 8. That the fees of the county auditors, treasurers, commissioners, and probate judges, shall be the same as provided by law for like services in other cases, and shall be paid out of the general fund, and not again reimbursed: the surveyor and engineer shall be allowed five dollars per day for the time actually employed; each chainman, axman, and rodman shall receive one dollar and twenty-five cents per day; the printer's fees for publishing the notice herein provided for shall be at the rate of fifty cents per square for actual printed matter for the first insertion, and twenty-five cents per square for each insertion thereafter, and no more; all cost bills shall be examined and approved by the said joint board before any order shall issue thereon.

SEC. 9. The said joint board of county commissioners may, when such improvement is located and established, as provided in this act, and the same crosses any corporate or public road, or any railroad, if they are of the opinion that the same will be benefited, and the road-bed or traveled track will be made better by the cleaning out, widening, deepening, straightening, and constructing said ditch or ditches, drain or drains, or water-course or courses, apportion and set off, to the county, if a county or state road, to the township, if a township road, to the company, if a corporate or railroad, a part of the costs of constructing said improve-

ment, the same as to private individuals, according to the provisions of this act, and compel them to pay said costs of construction in like manner.

SEC. 10. If application for compensation or damages shall have been made agreeably to the third section of this act, the joint board of commissioners shall fix a day on which they will meet and determine, upon actual view of the premises, the amount of compensation or damages to be paid to such applicant, and also a day when they will make their report. After the report of said commissioners shall have been made, the petitioners may discontinue the said proceedings by paying all costs that have accrued up to that time, and notifying each of the county auditors, in writing, that they will not further prosecute the same. But no proceeding shall be discontinued unless the notice thereof shall be signed by a majority of the petitioners for said ditch.

SEC. 11. That if any person, persons or corporation shall feel aggrieved by the action of said joint board of commissioners, in the assessment of damages or compensation, either or both, he, she or they may, within fifteen days from the making of said report, appeal from the decision of the joint board of commissioners to the probate court of the county in which said land is situated, by giving an undertaking with good and sufficient sureties, to be approved by the auditor of said county, conditioned to pay all costs on such appeal; if the appellants shall fail to sustain their appeal against the decision of said joint board of commissioners, and such undertaking having been given, the auditor shall forthwith certify to the probate court a copy of said appeal, together with a description of the property taken or injured, as contained in the report of said joint board of commissioners, which shall be docketed in said court, styling the appellant, plaintiff, and the joint board of commissioners, defendants.

SEC. 12. If the appeal be taken on account of damages or compensation allowed by the commissioners, such proceedings shall be had to determine the amount, as are required by the act entitled "an act to provide for compensation and damages to the owners of private property appropriated to the use of corporations," passed April 23, 1872, and the acts amendatory thereof and supplementary thereto, and the compensation or damages found in favor of said claimants shall be certified by said probate judge to the county auditor, and paid out of the county treasury from the general fund.

SEC. 13. If said joint ditch improvement shall, at any point, intersect or cross, or run within the boundaries of any state, county, township, or improved road in either of said counties, or on the line between said counties, or at any place where a public road by said joint board of commissioners is deemed necessary, in every such case the timber of all kinds within the bounds of said road shall be cleaned out, and said ditch improvement shall be constructed so that the excavated earth shall be so placed as to make a good road-bed for public travel.

SEC. 14. That all acts and parts of acts, and provisions of law in force, relating to the construction, cleaning out, widening, deepening, or otherwise improving any ditch, drain, or water-course, that are inconsistent, or in any way conflict with the provisions of this act, shall be held to be inoperative and of non-effect in any proceeding had by and under the provisions of this act; but in all matters not provided for in this act, said joint board of county commissioners shall be governed by the general laws in force relating to the construction, locating and estab-

lishing, cleaning out, widening, deepening, or otherwise improving ditches, drains, and water-courses, as they may be applicable to their proceedings.

SEC. 15. That the collection of taxes levied, or ordered to be levied, to pay for the location, establishment, and construction of said improvement, under and by authority of this act, shall not be perpetually enjoined and declared absolutely void in consequence of any error committed by the engineer or surveyor, or by the county auditor of either of said counties, or by said joint board of county commissioners, in the location and establishment thereof, nor by reason of any error or informality appearing in the record of the proceedings by which said improvement may have been located and established; but the court in which any proceedings may hereafter be brought to reverse and declare void the proceedings by which said improvement has been located or established, or to enjoin the tax levied, or to be levied, to pay for the labor and fees aforesaid, shall, if there be manifest error in said proceedings, set the same aside, and allow the plaintiff in the action to come in and show wherein he has been injured thereby. The court shall, upon the application of either party, appoint such person or persons to examine the premises, or survey the same, or both, as may be deemed necessary; and the court shall, on final hearing, make such order in the premises as shall be just and equitable, and may order such tax to remain on the duplicate for collection, or order the same to be levied, or may perpetually enjoin the same, or any part thereof, or if the same shall have been paid under protest, shall order the whole or any such part thereof as may be deemed just and equitable, to be refunded. The cost of such proceedings to be apportioned among the parties, or paid out of the county treasury, as justice may require.
